EASTLAND WAS OVERLOADEDSTATES SHIP SHOULD NOT HAVE BEEN
ALLOWED TO CARRY MORE THAN 1,250Wreckler's Assistant Believes Vessel Was
Grounded—Redfield States Government
Supervision Had Not Been Lax—Recover
Three Bodies—Contract Is Let to Raise
Ship.

CHICAGO, July 27.—The excursion steamer Eastland was overloaded; it was under ballasted; it had grounded. These were the direct contributing causes of the appalling disaster which resulted in the death of many hundreds of persons when the vessel capsized at its dock in the Chicago river last Saturday.

This was the opinion expressed at the coroner's inquest which began today by Harbor Master Adam F. Wreckler and his chief assistant, Joseph R. Lynn.

Testify Eastland was "Cranky." The experts told the jury that the steamer should never have been permitted to carry more than 1,250 passengers. It is said that more than twice that number were aboard when the catastrophe occurred. Under its license the vessel was entitled to carry 2,500 passengers. The experts testified that the Eastland was "cranky."

While Coroner Hoffman and the jury were hearing experts and eye-witnesses in an endeavor to fix the responsibility for the disaster, Secretary of Commerce Redfield was looking over the upset boat and watching the divers comb the wreck and surrounding waters, recovering three more bodies. He made statements to the effect that government supervision had not been lax and that the Eastland had safely carried many more passengers than were aboard when the ship rolled over.

Told Captain to Trim Vessel. Mr. Wreckler testified that he arrived at the Eastland's wharf twenty minutes before the steamer was due to start and saw that the boat was listing to port. He called to Captain Pedersen on the Eastland to trim the vessel, shouting to the captain that he would not open the Clark street bridge until the boat was righted.

Mr. Wreckler said the captain tried to right the ship but seemed unable to take water into the ballast tanks fast enough. The harbor master said he had no doubt the tanks had been pumped dry but that the captain should have been able to fill them in from three to six minutes if nothing had been wrong with the ballast tank valves.

"I never saw the Eastland loaded so heavily as it was Saturday morning," said Mr. Wreckler, "and I have seen her depart many times. The boat first listed about 7 degrees then came back slightly and again started over and kept on going. A boat that is difficult to handle under all circumstances is known as a 'cranky' boat and I have noticed the Eastland to be 'cranky' constantly."

Thinks 1,250 Passengers the Limit. "I don't think the Eastland should have been allowed to carry more than 1,250 passengers because it did not have enough draft and stability to carry a larger load. Only last Tuesday I told Captain Pedersen his boat needed trimming as its ears. He said the twin screws of the ship kept the Eastland on an even keel while under way."

"After his arrest I heard Captain Pedersen say that he tried for seventeen minutes to trim the steamer but could not get water into the ballast tanks fast enough. I don't believe that Captain Pedersen realized the danger until the final plunge came."

Calls Police and Fire Departments. Mr. Lynn, assistant harbor master testified that he arrived just as the Eastland was due to start. He saw the dangerous list of the ship and called police and fire departments returning to the wharf to see passengers leaping from the decks to the river.

"I believe," said Mr. Lynn, "that the ship was on the bottom about mid-ship. If she lay on a bank sloping towards the middle of the river and was being jammed down against this bank, naturally she would tip toward the river center; if the captain tried for seventeen minutes to right the boat without attempting to get off those on board there was negligence."

Mr. Lynn said he saw many members of the crew leap off the Eastland on the wharf side while the ship was careening.

Captain of Tug Testifies. Captain John H. O'Meara of the tug Kenosha, which was tied to the Eastland to tow the ship out of the river, testified that he did not take hold of the Eastland until

after 7:25, several minutes after the ship had begun to list, according to other witnesses. Even then he waited for word to go ahead and the captain of the Eastland was not working out the stern, as was necessary to protect the screws. Captain O'Meara said he finally got the word to go ahead but before the bow line was taut, the Eastland listed dangerously and he stopped, but the ship never righted. He had towed the Eastland four times and she always listed, he said.

L. C. Wheeler, assistant division superintendent of the department of Justice, submitted government inspection certificates, including the latest one issued by Robert Reid, July 26, 1915, at the request of Captain Pedersen of the Eastland, that the carrying capacity be increased. This certificate allowed the Eastland to take on 2,570 passengers, an increase of 500 over previous permits.

Recover Three Bodies. Efforts to check up the total number of lives lost by the upsetting of the Eastland made no progress today. While the list of missing grew only three bodies were recovered and divers said that probably not more than a score of victims remained in the ship.

Divers walked the river bed, hand in hand late today but found no corpses.

It was said that the number of missing might be greatly reduced by weeding out duplications and tardy reports from those saved.

While State's Attorney Hoyne said he had evidence that some 2,700 passengers were on the ship, the government checkers said they were positive not more than 2,500 went aboard, including children.

Let Contract to Raise Ship. A contract to raise the steamer was let today and the work will be begun as soon as possible. Many funerals will be held tomorrow and the day has officially been proclaimed as one of mourning.

According to official lists 824 bodies now have been recovered and identified.

Takes Jurors to Wreck. William J. Wood, a naval architect, submitted a long technical statement, similar to one he made just after the capsizing of the ship. Coroner Hoffman took the jurors to the wrecked steambot so that Mr. Wood could explain technical details more plainly.

Secretary of Commerce Redfield tonight issued a statement on the investigation of the Eastland disaster declaring there was no truth in reports that friction existed between the department of commerce and the department of justice and anybody else. Mr. Redfield said he had arranged to co-operate fully with United States district Attorney Clyne in trying to place blame for the accident.

The statement said that under the law the steambot inspection service was obliged to make an investigation but that the rules provided that such an inquiry should be made by inspectors from other cities than those concerned in certifying the steamer. It was purposed therefore to call on the Milwaukee board to hold the inquiry in Chicago. The statement continues:

Redfield to Conduct Inquiry. "In order that seriousness of this particular accident may be given due weight, we shall arrange with the local board of inspectors to have Mr. Thurman of the department of Justice and myself conduct the inquiry with the assistance of the commanding officers of the steambot inspection service. It seems to us, however, that something more should be done than that and therefore I have asked Mr. Harry A. Wheeler, vice-president of the Union Trust company, and Mr. Marvin B. Pool, of Butler Brothers, to act as unofficial observers or partakers in the inquiry. It is my purpose to ask that the Western Electric company select some technical member of its staff as a third representative."

"It is hoped to begin the inquiry Thursday. The supervising inspector general of the steambot inspection service, Mr. George Uhler, will arrive from San Francisco tomorrow. These hearings are of an informal character in the sense that legal restriction as to testimony are waived."

Moving picture censors today refused permits to four concerns which wanted to display pictures of the Eastland disaster on the ground

BECKER'S FATE RESTS
WITH JUSTICE FORDDECISION ON MOTION FOR NEW
TRIAL IS EXPECTED LATE TODAYBriefs Are Filed Both for and
Against Motion and Jurist Studies
Them Until a Late Hour—Becker
is Said to be Preparing Another
Statement.

NEW YORK, July 27.—Whether Charles Becker, the former police lieutenant twice convicted of instigating the murder of Herman Rosenthal will die in the electric chair at Sing Sing prison Friday appeared to night to rest with Supreme Justice John Ford, who after receiving briefs for and against a motion for a new trial, studied them until a late hour. He promised to announce his decision as quickly as possible and it is expected late tomorrow.

W. Files Supplemental Brief. W. Bourke Cockran, chief counsel for the condemned man, filed a supplemental brief today.

In his appeal Mr. Cockran argued that the judgment of death against Becker was obtained by the suppression of vital facts and the misrepresentation of other facts by the chief witness for the prosecution. It is declared in the supplemental brief that the affidavit of Hartford T. Marshall, former counsel for "Bridge" Webber, should in itself be sufficient to grant a new trial, as should also the affidavits of Benjamin Kauffman and Louis Harris, Kauffman was an associate of Rosenthal for twenty years and Harris is at present confined in Sing Sing prison. Attorney Marshall in his affidavit alleges that Webber confessed to him that Becker was not a party to the murder plot.

District Attorney Perkins in his brief contends that the justice has not the sovereign power to grant a new trial as claimed by Mr. Cockran.

Terms New Evidence Valueless. The so-called new evidence is declared to be cumulative and designed to impeach witnesses at former hearings. It is charged that it is valueless because "the great mass of it is hearsay and irrelevant." It is contended also that the so-called new evidence was known to the defendant at the time of his second trial.

It was reported tonight that Becker in his cell at Sing Sing is preparing another statement protesting in his innocence.

The statement, it is said, was designed to be given out if the execution takes place.

MORRIS UNDERGOES

OPERATION. Chicago, July 27.—Ira Nelson Morris, United States minister to Sweden, is in a hospital after an operation today for the removal of a cystic tumor of the throat. The surgeons announced that the condition of Mr. Morris was good and that he would be able to leave the hospital within two weeks. Mr. Morris arrived here last Friday on a leave of absence for the purpose of having the operation performed.

that the companies wanted to "commercialize a calamity."

Sheds Little Light on Cause. At a light session of the coroner's jury, Walter C. Steele, secretary-treasurer of the St. Joseph-Chicago Steamship company, owner of the Eastland, testified for several hours but told little to shed light on the cause of the disaster. Steel said he knew nothing of the practical working of the steamships. He had invested \$30,000 in the concern and received \$50 a month for his services. The company never had declared any dividends.

The company, Steele said, paid \$150,000 for the Eastland in June, 1914. The company carried \$150,000 accident insurance on the ship. Martin Flatow, excursion agent on the Eastland, testified that only 2,500 persons, by the counters of the government inspectors, were allowed to go on the boat. He said that about twenty babies in arms were carried on the ship.

Ten Bodies Arrive in New York. New York, July 27.—Ten bodies of victims of the Eastland disaster were brought here tonight in a special funeral car over the Pennsylvania railroad from Chicago. Relatives of those killed and survivors of the disaster occupied a car on the same train. Local officials of the Western Electric company and friends of the victims met the train.

Captain Harry Pedersen of the Eastland was called as a witness at the night session of the coroner's jury. He testified that he had sailed, among other ships the Northland, which for a time plied between Chicago and Hamburg, Germany and had been a master of ships for twenty years.

State's Attorney Hoyne interrupted to say:

"You made a statement in my office and I don't think you should testify here, as you may be indicted for manslaughter."

"I am willing to tell the truth," said Captain Pedersen. But on advice of counsel the captain left the stand and at once was taken into custody by officers. Joseph M. Erickson, chief engineer of the Eastland, was excused from testifying on the same grounds as Pedersen. The inquest was adjourned at midnight until 10 o'clock Wednesday morning.

War News Summarized

The Austro-Germans and the Russians, the Austrians and the Italians and the French and Germans are battling furiously on the eastern, southern and western war fronts respectively.

The Teutons still claim progress for their troops in northwest Russia and in that long sector in Poland where the envelopment of Warsaw is the objective; the Italians assert that they still are making gains against the Austrians along the Isonzo front and Berlin admits the capture by the French in Alsace of advanced German trenches to the north of Muenster. The captured front is a mile and a third in length.

In both northwest Russia and in Poland the Russians at various points assumed the offensive but according to Berlin all their attempts at resistance were broken down.

Especially great was the Russian attack against the Germans crossing the Narew, the offensive movement of the Muscovites extending from Golsow near Rostan to Serock, to the south of Pultusk—a front of some 60 miles.

Except in Alsace the fighting along the western front is still characterized mainly by artillery engagements.

Constantinople reports that near Seddul Bahr on the Gallipoli peninsula, the Turks have captured a portion of the allied trenches and destroyed the defenders.

The bombardment of a portion of the Italian Adriatic coast by Austrian cruisers and torpedo boat destroyers, the report by Constantinople of the sinking of a French submarine by a German underwater boat in the Dardanelles and the sending to the bottom of a Danish steamer, a Norwegian sailing ship and many trawlers by German submarines are related.

TURKISH MINISTER UNDERGOES
OPERATION IN SWITZERLANDWhen Asked for an Interview Ned-
jemken Sends Word He Is Un-
able to Discuss His Country's Af-
fairs.

Geneva, via Paris, July 27.—Nedjemken Effendi, the Turkish minister of justice, who came to Switzerland last week by way of Vienna, has been operated on for appendicitis at the hospital of Dr. Roux in Lausanne. An attempt by The Associated Press to obtain an interview with the minister concerning the situation in Turkey brought forth a note from Nedjemken that he was ill and unable to discuss his country's affairs.

The correspondent, however, talked with Fassun Eskell Effendi, who came to Switzerland with Nedjemken, and who gave denial to reports that he and Nedjemken were here invested with official powers to open separate peace negotiations with the triple entente powers.

"Turkey did not desire this war," said Fassun Effendi, "and would gladly see the arrival of peace but all recent rumors concerning Turkey seeking a separate peace are untrue."

MRS. FREEMAN DENIES ALL CHARGES
IN DIVORCE CASE AT EUREKAName of Former Governor Yates
Brought into Proceedings Unjust-
ly According to Her Testimony.

Eureka, Calif., July 27.—Mrs. Freeman and her husband, E. R. Freeman, testified today in the trial of the divorce action against Mrs. Freeman in which the former Governor Yates of Illinois is named.

Freeman testified that with his wife he went to the station to bid Yates farewell on the morning of June 30, 1913. "You had better come to the end of the line with me, little one," Freeman testified Yates said to his wife and Mrs. Freeman replied, "Sure."

Later in the day, Mrs. Freeman took the stand and entered a sweeping denial of every charge made. She declared that she and Mr. Yates were the only passengers on an automobile stage for a distance of 90 miles but that there was nothing improper or imprudent in Mr. Yates' actions.

This case is the result of a suit filed nearly two years ago. Mr. Yates while greatly annoyed over the matter has told various friends all the circumstances. The declaration in the divorce proceedings simply accused him of being affectionate with Mrs. Freeman as they rode in a train and a stage automobile. Mr. Yates has said that there was not the slightest truth in the story although he sat with and conversed with Mrs. Freeman during the journey mentioned. He was in California filling some Chautauqua appointments and met Mrs. Freeman in that way.

JURY EXONERATES

BLACKSMITH. Cedar Rapids, Ia., July 27.—That Ulysses Cochran, the blacksmith, at Center Point, acted in self defense when he shot and killed Wayne Hoagland early Sunday morning, was the verdict of the coroner's jury today following an inquest held in Center Point yesterday.

MEXICANS PLAN
PEACE CONFERENCEEfforts to Bring About
Meeting of Leaders Are
Reported Under Way

CONTEMPLATE EMBARGO

Washington Government Con-
siders Stopping Shipments of
Munitions By Border or Sea

CAPITAL REMAINS ISOLATED

WASHINGTON, July 27.—Efforts to bring about conference of military leaders in Mexico in anticipation of a final appeal to faction leaders by the United States are reported to be under way in the southern republic. Information reached Washington tonight that representatives of various factions were consulting their leaders with a view to the assembling of a peace conference either with or without General Carranza who refused to participate in the peace negotiations which President Wilson urged two months ago.

Contemplate Embargo on Munitions. An embargo on exportation of munitions of war to Mexico was said tonight to be contemplated as a part of the next step of the Washington government. Shipments across the border or by sea would be prevented.

Mexico City remained cut off from the outside world today despite official efforts to get word of actual conditions there. Reports that Carranza forces under General Gonzalez had returned to the capital lacked official confirmation. The Carranza agency here asserted Gonzalez already had reached the outskirts of the capital and would report the city. It also stated that General Obregon had seized San Luis Potosi and would be joined by General Trevino and reinforcements from Monterey preparatory to a new offensive directed at Torreón. Troops from the interior were also reported arriving at Vera Cruz to be transported by boat to Tampico and thence overland to Monterey.

Exact Wilson Today. Burton Wilson, chairman of the International relief committee in Mexico City is expected in Washington tomorrow to consult with administration officials. The commanding officer of the Chattanooga reports that Guaymas is quiet and that an attack on the town appears to be improbable at present.

REPORT REFLECTS A DECIDED
IMPROVEMENT IN STEEL INDUSTRYQuarterly Statement of U. S. Steel
Corporation Shows Total Earnings
Are More Than Twice Those of
the First Quarter of the Year.

New York, July 27.—The quarterly report of the United States steel corporation covering the period ended June 30, as given out here today, reflects a decided improvement in the steel and iron industry. Total earnings of the corporation were more than twice those of the first quarter of the year. The monthly figures show steady and marked improvement.

For April they were \$7,286,430, for May \$9,220,576, for June \$11,343,076, a total for the quarter of \$27,950,082. This compares with total earnings for the preceding quarter of \$12,457,809.

The net income was \$20,311,584 and the balance after deduction for interest on bonds and premium on bonds redeemable under sinking funds was \$14,572,564. For the first quarter of the year the balance was \$9,155,058.

After paying the dividend of 1 3/4 per cent for the quarter on the preferred stock there remained a surplus of \$8,267,645. In the preceding quarter there was a deficit of \$5,389,861.

No action was taken on the common stock dividend, which has been suspended since the last quarter of 1914.

EIGHT MINERS ARE KILLED AND
FIFTEEN BURNED IN EXPLOSION

CHRISTOPHER, Illinois, July 27.—Eight men were killed and fifteen badly burned in a gas explosion in one of the entrances of the Modewell mine here today. Three men are missing.

The number of men in the mine when the accident occurred is not clear, figures ranging from about 250 to 450. Less than thirty men were at the entrance where the explosion took place, the other workmen being at the other entrances.

All but those at the burning entrance escaped.

GERARD PRESENTS NOTE.

Berlin, July 27, via London, July 28.—The American Ambassador today presented to the foreign office a note of inquiry regarding the attack by a German submarine boat on the British Steamer Orduna.

BRING TUETON ADVANCE
NEARLY TO STANDSTILLWHERE GERMAN MOVE FORWARD IT

Von Mackensen Takes a Few Villages on the Way to the Lublin-Chelm Railway—Everywhere the Battles in the East are at Their Height.

London, July 27.—The Austro-German attempts to envelope the Russian armies defending Warsaw and to capture the Polish capital have been brought nearly to a standstill and where the Germans are moving forward it is only yard by yard and at fearful cost.

Takes Few Villages.

The German Field Marshal Von Mackensen has taken a few villages on the way to the Lublin-Chelm railway, between the Vistula and the Bug rivers and the Austrians, by a counter offensive at Sokal, have captured positions which will make the German flank safer but, as has been often occurred lately, as has been reported by the German press, Berlin officially reports that "otherwise the position of the German troops under Von Mackensen remains unchanged."

Along the western bank of the Vistula from Langsdorf to Nowogrodek even less progress apparently has been made while along the Narow, where Field Marshal Von Hindenburg has been directing operations in an effort to drive a wedge in behind the city. He is now largely occupied in meeting the Russian counter-attacks.

The Russians who were defeated in the Baltic provinces recently, also have turned and have delivered an attack from Mitau, which was repulsed.

Continue Advance Eastward. Further to the south the Germans continue their advance eastward toward the Vinnia-Petrograd railway, but there is a lot of territory to cover before this is reached and it is considered more likely that General Von Bulow, who is in command here, will turn to the southwest to threaten the Russian armies which are facing Von Hindenburg.

Everywhere the battles are at their height, especially that in which Von Mackensen is engaged. All the military critics here believe that this is the most critical engagement of the campaign for the whole German plan depends on his reaching the Lublin-Chelm railway.

French Report Success. With interest largely centered on the east the important offensive of the French in Alsace has been almost disregarded. They report tonight another success to the north their objective and the repulse of a series of German counter-attacks. The French have concentrated a lot of artillery in this region and with high explosives have been simply tearing up the German defensive works which are among the strongest along the whole line.

Artillery likewise is playing an important part in the battle on the Isonzo where the Italians are reported to have concentrated for three days their fire on the Austrian positions. This fire is said to have exceeded in violence that which the Austro-Germans employed against the Russians in western Galicia, which up to that time was the most terrific ever experienced in war.

THREE DIE WHEN ROLLER COASTER
JUMPS TRACK AT CONEY ISLAND

NEW YORK, July 27.—Three persons were killed when a roller coaster at Coney Island, jumped the track late today. The dead are: James McDonough, Jr., 24 years old, Coney Island.

Miss Ruth Cuddy, 19, Long Island City.

Mrs. Anna Hartman, 55, Brooklyn.

Mrs. Clarence Moles of Spring Valley, N. Y., and her 7 year old son, Edward, the other occupants of the car escaped injury. Flung clear of the car she clung to the track, holding the boy in one arm, until rescued by policemen. McDonough, who was driving, was instantly killed. Miss Cuddy and Mrs. Hartman were thrown to the cement pavement, both dying soon after from skull fractures.

MASSACRE LEADS
TO HAITI REVOLTPort au Prince Governor
Causes Execution of 160
Political Prisoners

OUTBREAK FOLLOWS

Mob Invades Dominican Lega-
tion and Kills Gen. Oscar
With Fusillade of Shots

ATTEMPT TO KILL PRESIDENT

PORT AU PRINCE, Haiti, July 27.—General Oscar, governor of Port au Prince and a supporter of President Guillaume, caused to be executed today all the political prisoners in the hands of the government to the number of about 160 men.

The victims of this massacre included General Orestes Zamor, a former president of Haiti.

Execute Governor.

When the people of Port au Prince learned of the massacre, there was a general outbreak of indignation. A mob invaded the Dominican legation, seized General Oscar and dragged him before the door of the legation, where he was executed by a fusillade of rifle shots.

The mob then turned to the French legation and threatened to invade this building to compass the execution of President Guillaume. Guillaume took refuge under the flag of France after he had been compelled to flee before the rebel attack.

Revolutionists Hold City.

The revolution that flamed out was an offshoot of the movement to the north where the adherents of Dr. Rosendo Bobo, twice expelled from Haiti, have been striving for several months to break the power of the Haitian president, General Vilbrun Guillaume. The revolutionists are in possession of the city. How many persons have been shot down in the streets cannot yet be learned.

Port au Prince has been in a state of panic for days. No one knew when he might be cast into prison; there have been wholesale arrests apparently caused by order of the president or some of those close to him. The successes gained by the revolutionists in the north were convincing proof to the president and government officials that their course soon would be run. Therefore they viewed with suspicion various individuals and organizations. One regiment of soldiers was disbanded. It was this regiment which at four o'clock this morning descended upon the palace.

President Abandons Palace.

Guillaume and those who acted as his guard offered a stubborn resistance but were greatly outnumbered. The palace was abandoned by the president, but some of the others continued its defense. Soon word of the massacre of the political prisoners was circulated and a fierce wave of indignation swept over the capital. Many who had not originally been identified with the rising, took up arms.

The Dominican legation was invaded and the governor of Port au Prince paid the price with his life.

It was in March 1908, that a similar execution of political prisoners though not by any means so great an extent as took place today.

Nord Alexis was then president of Haiti. It was then declared by his officials that those executed were engaged in a revolution, but a few months later Nord Alexis was deposed and deported from the country.

So far as known no foreigner has suffered in the present rising and it is expected that American warships will be sent here immediately to protect foreign lives and interests.

President Studies Reports.

Cornish, N. H., July 27.—Reports of increasing chaotic conditions in Mexico were studied here today by President Wilson, who gave earnest consideration to formulating the next step in the new Mexican policy inaugurated when he announced that there must be an improvement in affairs in the southern republic.

The president has been reading reports regarding Mexico very carefully, with the result that he has become convinced that the United States can wait a little longer to see whether the different factions can compose their differences.

DIVER CHASES CARPATHIA.

New York, July 27.—The Cunard liner Carpathia, which arrived here tonight from Liverpool, was chased by a submarine off the Irish coast Sunday, July 18th, according to several of her passengers. Joseph Thompson of Canton, Ohio, a survivor of the Lusitania disaster, and Andrew Matherwell, a grain merchant of Glasgow, declared they saw a British patrol fire at what looked like the periscope of an underwater boat. The Carpathia brought 120 passengers.

The Federal Treasury statement for Saturday July 17, showed a balance of \$71,051,288.96 in the general fund compared with \$126,133,585.69 on the same date two years previous, under Republican laws. The deficit for the first 15 working days of the new fiscal year was \$13,142,587.94, showing that that administration is running behind at the rate of \$876,000 per day.

Many patrons of our street car system seem to consider entertainment of the motorman an obligation. They crowd the front end of a car in such a way that at times it is difficult to enter or leave and the motorman must have difficulty in seeing the street on either side. The general public are not the only guilty ones, as employees of the company are usually to be found in front. In these days of one man cars the question of safety should bar all but the one man responsible for the running of the car from the front platform when there are vacant seats. "Safety first."

John Wanamaker is a great business man but his recent suggestion that the citizens lend a great sum to the government for the purchase of Belgium from Germany has not met with much favor. Mr. Wanamaker's story is that such a purchase might lead the way to peace in Europe and better business conditions in this country. But a vast number of people will inquire where Germany got any right and title to Belgium.

Stopping a Fraud.
No longer are the dealers in "lucky stones" to be permitted to find victims by the use of advertising sent through the U. S. mails. Uncle Sam recently issued an order which bars all such matter and "unluckily" for the dealers stops them from profits which have averaged \$44,000 annually just for one firm. The department said: "The representations which induce the purchase of said stones are to the effect that they were rare, hard to procure and of great value, and that they possess mysterious powers, by means of which lost jewelry is restored, true and false friends pointed out, like sick are healed, the poor come into possession of wealth, the unemployed secure work, hard luck is banished and hundreds of secrets are revealed."

Saved the Suffrage Bill.
According to Senator Hugh S. Magill the effective work done by officers of Illinois Equal Suffrage League saved the equal suffrage law already on the statute books. Mr. Magill complimented Mrs. Grace Wilbur Trout and Mrs. McGraw in a letter as follows:
"My Dear Mrs. Trout:
"As I consider what was accomplished during the recent session for the betterment of social and political conditions, I am impressed with the effective work done by yourself and Mrs. McGraw in preserving intact the Woman's Suffrage Law enacted by the Forty-eighth General Assembly."

"We are accustomed to accord praise to those who bring about the enactment of some piece of advanced legislation, but we do not always recognize the efficient work done by those who prevent the backward swing of the pendulum. The Suffrage Law passed by the somewhat progressive Forty-eighth General Assembly was indeed a distinct triumph. That it was not repealed or in any way modified by the more reactionary Forty-ninth General Assembly was largely due to your political sagacity and untiring efforts, for which every real friend of equal suffrage should feel grateful."

"Because of my somewhat intimate knowledge of the various contending forces in the Illinois legislature, I can perhaps better understand the complexity of the situation and I wish to express to you my sincere appreciation of your work."

Make Sacrifice for the War.
The London Observer tells of sacrifices made by English subjects in their efforts to help in the war.
"The boys of a reformatory school gave up their annual holiday to send money to the Prince of Wales' Fund."

"The girls of a training home gave up puddings and had dry bread in order to make a weekly contribution to one of the large funds."

"A working woman with no money offered a florin brooch which was given to her by her husband on her wedding day twenty-one years ago."

"There have been gifts from all parts of the world. The chief of these was, perhaps, the million bags of flour from Canada. Four million pounds of cheese was sent by the government of Quebec. All parts of the Empire have sent fruits of the earth and have supported by collections nearly all the funds raised in the United Kingdom."

"Here is an interesting case from Ocean Island in the Pacific. They collected \$1,000 for the Prince of Wales' Fund, and the principal natives on this and other islands of the group signed a document stating that:

"This is a contribution which all Banabans on the island of Banaba wish to make to the patriotic fund for the relief of those who suffer in the war with Germany and as a pledge of loyalty to the British government. The suggestion was made to us by our governor, and there is not one voice amongst us against the offer of this contribution."

"The High Commissioner in sending this contribution to the Secretary of State added:—
"Your Excellency will observe the signature of old Rota, the late leader of the opposition to the settlement of the Banaba land question. Rota's signature was included at his special request."

"That is an indication that all differences have been smothered by the war. There have been innumerable cases of that kind in all parts of the world."

How Buttermilk Helps.
Possibly no drink has grown more in popularity during recent years than buttermilk and the stamp of approval given it by many physicians is largely responsible for this increase in consumption. Buttermilk is prescribed for many ailments and many recoveries are attributed to it. The Journal of the American Medical Association discusses Buttermilk and Bacteria and says:

"The popularity of buttermilk as a food and a beverage is attested by its widespread sale. Any drink which can succeed in invading the precincts of the saloon and compete for sale, as buttermilk now does, side by side with alcoholic beverages deserves attention. The plan of allowing milk to undergo fermentation of such a character that the products are not unpleasant or unwholesome for human consumption, yet serve as preservatives to prevent undesirable types of decomposition, is not new. The fermentation product chiefly depended on in such cases is lactic acid, although in certain types alcoholic fermentation may also be in evidence. Buttermilk belongs to the acid type; it usually contains from 0.6 to 0.9 per cent of acid."

Strictly speaking, buttermilk is a by-product of butter-making; but with the development of the milk industries, the demand for buttermilk has frequently been met by fermenting the skim or separator milk which remains as a by-product of the cream trade. The fermented product is not literally buttermilk, but it may be indistinguishable from the latter in composition and properties. The use of these fermented milk products has been favored, not alone for their intrinsic food value, but also for accessory reasons. The specific fermentation products have been reputed to have a "tonic" action in the digestive tract. Special virtues have been attributed to the lactic acid bacteria, particularly in relation to putrefactive changes in the alimentary tract. Aside from any alleged therapeutic virtues, there can be no doubt of the nutritive value of the beverages. With the growing attention devoted to the bacteria which milk may harbor, and the recognition of the dangers which they may entail, it is not strange that buttermilk also should demand bacteriologic consideration. Heinemann, of the Department of Bacteriology and Hygiene at the University of Chicago, has demonstrated that the presence of lactic acid in milk will destroy the germs of dysentery, typhoid, diphtheria and cholera."

PURSUING PLANS FOR

ICE HOUSE CONSTRUCTION
W. B. Miser and W. R. Morrison, construction engineer, will leave this morning for St. Louis to make arrangements for the construction of an addition for storage at the Citizens' Pure Ice Co. plant on Anna street. The building as projected will cost about \$10,000, and will be completed before the approach of cold weather. With adequate storage facilities it will be possible to run the plant during the winter months, whereas last winter the plant was closed with the exception of a few hours each week to keep the machinery in good running order. The new building will be of brick, with cork lined walls.

TEST BAY STATE ALIEN

LAW IN COURT.
Boston, July 27.—The answer of the City of Lynn to the proceedings brought to restrain that city from discharging non-citizens and giving their places to citizens of the state will be filed tomorrow. The heads of the various city departments are made defendants in the action. In discharging aliens the department officials have been acting under the provisions of state laws, but this legislation is attacked by the plaintiffs as being unconstitutional. An injunction is sought to prevent the city and its agents from taking any action in pursuance of the legislation.

GIRL LEAVES HOME.
Mr. and Mrs. George Browning of Pearl, foster parents of Marie Reed, aged 10 years, are searching for the girl. She was sent on an errand and instead boarded a train and was traced as far as Roodhouse. Her mother, Mrs. Nel Platt of Haypress, does not know of the child's whereabouts.

SIR EDWARD GREY'S REQUEST IS CAUSE OF MUCH SPECULATION

Asks That Text of British Note be Withheld From Publication in This Morning's Papers.

Washington, July 27.—The request made by Sir Edward Grey, British minister for foreign affairs, that the state department withhold from publication in tomorrow morning's papers the text of the British note received yesterday in reply to the American protest against the British order in council causing much speculation today in official circles. It was at first supposed by officials that statements in the last American note to Germany which were of general application and set out in determine language the purpose of the United States government to maintain the freedom of the seas might have influenced the British foreign office to deal with that subject in the same note which defends the order in council.

From British sources however, it was learned that the main purpose of asking the postponement of publication was to afford opportunity to the British government to consider and if necessary comment upon the communication which came from Washington, July 17th, in regard to cases before British prize courts. The British note delivered yesterday is understood to be framed upon the theory that the order-in-council does not transgress the rights of neutrals as laid down in international law, though it is admitted that in some respects the application of the legal principles is new.

COST OF LIVING IN MEXICO.
The St. Louis Globe Democrat prints a letter signed by Albert Von Hoffman concerning the cost of living in Mexico, which reads as follows:

It may be of interest to your readers if you will publish a letter received from my brother-in-law, John Stahl, who is manager of my plantation in Xuchil, near Jalapa, the capital of the state of Vera Cruz, in Mexico. Leaving out the personal matters, he says:
Everything is running in the same old way, excepting that the daily living expenses are soaring. Notwithstanding that we have doubled the wages of all working men, I want your permission to furnish the laboring men the corn which they need, without any cost for the next two months, as their new corn on the land we have given them will then be ripe. A family needs 1 1/2 quarts each week, and as a quart of corn costs \$10, it means \$15 a week per family. For your information note the difference in prices, as they were a year ago and the price we have to pay today:
One year ago and today:
Corn, 1 quart, \$1; \$10.
Lard, 1 pound, 30c; \$2.
Beans, 1 liter, 6c; 40c.
Panela, 8 for 25c; two for 25c.
Rice, 1 pound, 12c; 60c.
Cotton goods, 1 yard, 12c; \$1.
A spool of twine, 15c; \$1.25.
Milk cows, \$25 to 30; \$250.
Bread have our people not eaten for nine months as there is none made. Flour, which formerly was \$9 per 100 pounds in Jalapa, cost \$70, and \$8 to \$10 to bring it out to the ranch.

BIDS FOR COAL.
Bids are hereby asked for supplying the city of Jacksonville with coal in accordance with requirements contract to take effect August 8, 1915, and to continue for one year. Bids to be received until 10 a. m. July 31, 1915, are asked as follows:
Pumping station: mine run 1 1/2 inch lump and 3 inch lump coal.
Municipal light plant; No. 2 nut, 2 inch screenings, 1 1/4 inch screenings, slack, No. 5 washed, No. 4 and 5 mixed washed, pea coal.
All coal is to be weighed upon the city scales at the pumping station or the city building as directed. Successful contractor will be required to furnish satisfactory bond in the sum of \$2,000. The council reserves the right to reject any and all bids.

POLICEMAN FIGHTS

FOR SALARY.
Jersey City, N. J., July 27.—Claiming that a city cannot fine a policeman sixty days' salary and insist that he perform regular duty without pay, Patrolman John Brennan has brought suit against the city for \$216. The suit comes up for hearing today, and the policeman declares he will put up a stiff fight for his salary. If he wins, many other officers who have been penalized in this manner for violating regulations will bring similar actions. Whether a police officer can be compelled to work without salary for a stated time, even if found guilty of violating rules, is the important question at issue, and it involves other cities who have imposed similar penalties.

GARRISON URGES THAT HE BE NOT PRESSED FOR DETAILS OF POLICY

Secretary Will Submit General Plans of Army Re-organization to President Next Week.

Washington, July 27.—Secretary Garrison of the war department issued a statement tonight urging that he be not pressed for details of the military policy now being formulated until the appropriate time has come to make them public.

The secretary will submit to the president next week a general plan of army re-organization, now being outlined by the general staff.

"I have refrained from making any statements because I feel that the effect thereof at this time be hurtful," the statement says.

"I feel that all sensible patriotic citizens wish to see a wise, sensible, practical, adequate military policy proposed and agreed upon. We are working to do our part toward that end. We are only hampered by premature discussion of specific details which can only be properly considered in relation to all the details.

"I feel so strongly upon this subject that I take the liberty of asking every earnest advocate of a proper military policy to abstain from pressing for details until the appropriate time has come to give them."

WORKERS WILL DEMAND EIGHT HOUR DAY AND INCREASED WAGES

NEW YORK, July 27.—Demands for increased wages and an eight-hour day will be made upon the managements of a number of ammunition factories in New York and New Jersey, it was decided here today at a meeting between representatives of the international association of Machinists and workers in the plants. A strike involving about 5,000 machinists will follow the refusal of the employers to grant the demands, J. J. Klepper, vice-president of the machinists, announced.

Mr. Klepper also announced that demands will soon be presented to the International Paper company which employs several hundred machinists in pulp factories throughout New York state and to a few munitions plants at Plainsfield, N. J., where 1,500 machinists are employed.

GREAT TYPHOON SPRINGS UP IN SHANGHAI; IS RAGING FURIOUSLY

SHANGHAI, July 27.—A great typhoon sprang up at midnight and still is raging furiously. The United States Cruisers Saratoga and Cincinnati felt the full force of the storm. The Saratoga's anchors were holding but the Cincinnati was drifting slowly.

A large amount of damage has been done ashore. Most of the trees along the Bund were blown down. A large steamer is ashore at Garden point and launches, yachts, rowboats, sampans and cargo boats were being ground to match wood against the wall of the Bund.

GROSS EARNINGS GREATER.
Oklahoma City, Okla., July 27.—Gross earnings of the St. Louis & San Francisco railway in Oklahoma in the year 1914 with the two cent rate in effect were greater than the gross earnings of the road in 1913 with a three cent rate in effect, according to evidence given by T. A. Hamilton, efficiency expert of the road, while on the stand in the United States district court today. Mr. Hamilton was the only witness examined today and will be placed on the stand again tomorrow.

HOCKENHULL WILL FILE DEED PROBATE

Document Dated August, 1900
Leaves Estate to Wife.

The will of the late Robert M. Hockenull was filed for probate Tuesday in the office of County Clerk Boruff. The will was executed on the 11th day of August, 1909, with R. C. Reynolds, H. C. Clement and Frank J. Heintz as witnesses. After providing for the payment of any debts, the testator bequeathed his residence property on West State street to his wife, Mrs. May Hockenull. The third paragraph of the will provides that all the remainder of the property shall belong to Mrs. Hockenull for life if she remain a widow. In event of her marriage one-half of the property is bequeathed in fee simple to their daughter, Mrs. Virginia H. Henning. Subject to this life estate of Mrs. Hockenull, all of the property is bequeathed to Mrs. Virginia Henning. Mrs. Hockenull is named executrix of the will and is to serve without bond.

THOMPSON DECLARES STEAMER EASTLAND WAS BUILT FOR SPEED

OMAHA, Neb., July 27.—Mayor William Hale Thompson of Chicago who passed through this city this evening, enroute home from the San Francisco, Exposition, said the Eastland was "built for speed and should never have been chartered to carry a heavy load of passengers."

Mayor Thompson said he had declined to be a passenger on the Eastland, after his first ride, because he was afraid it would capsize.

Mr. Thompson is an experienced yachtsman and has been much to sea.

ONE IS KILLED WHEN SPEEDING AUTO CRASHES INTO STREET CAR

CEDAR RAPIDS, Iowa, July 27.—While speeding through a residence portion of the city tonight, H. F. King, a cigar salesman of Dubuque and C. W. Ellis, Des Moines, drove their machine against a city car on the interurban lines and in the resulting crash King sustained injuries which caused his death in a hospital shortly afterward. Ellis was only slightly bruised.

No blame is attached to the crew of the car, for it was running slowly and under perfect control at the time.

POSSESSES INVISIBLE AEROPLANES.

Amsterdam, via London, July 28.—Germany possesses invisible aeroplanes, according to the Cologne Gazette. The wings are made of a clear transparent material called Cellon, which is the invention of a German engineer named Knaebel. Cellon, which is manufactured from cellulose and acetic acid, is tough, pliable and non-inflammable and is used instead of canvas. Herr Knaebel made his first experiments with the material two years ago.

COLONEL ROOSEVELT SCORES ADVOCATES OF PEACE AT ANY PRICE

Address Comes as a Climax to Roosevelt Day at the Frisco Exposition.

San Diego, July 27.—Advocates of peace at any price were scored by Colonel Theodore Roosevelt here tonight when he addressed a large crowd at the Panama Pacific exposition. Colonel Roosevelt's address came as a climax to Roosevelt Day at the exposition.

Holding a re-union with 77 members of his former Rough Riders regiment, Roosevelt fondled the old regimental colors when they were exhibited.

Throughout the day the former president was given tremendous ovations and it was with great difficulty that he was able to reach the platform tonight to speak.

"If after his Gettysburg address, Lincoln had listened to those who said that war is the worst of all evils we would not be here tonight," said Colonel Roosevelt, "and we remember those apostles of peace now by the names of Copperheads."

"It is absurd when we say we want war. I'm an extremely domestic man. But should there be war I and my four sons would go to it. Keep the battleships together. The digging of the Panama canal and the cruise of the battleship fleet around the world commanded the respect of nations. We should be prepared."

WIDOW CHARGES BROTHER OF OIL KING BEAT AND INJURED HER

CLEVELAND, O., July 27.—Charging that she had been defrauded of \$10,000 in a stock deal and that he had beaten and injured her and caused her arrest on a false charge when she called on him to get her money back, Mrs. Bertha M. Leland, a Montreal widow, former Cleveland restaurant cashier, today filed suits aggregating \$100,000 against Frank Rockefeller, brother of the oil king. Rockefeller tonight characterized the action as a "villainous proceeding" and declared he would fight the widow to a finish.

MRS. VORBECK IMPROVED.

FOREIGN CORRESPONDENCE By The Associated Press.)

Paris, July 23.—(Correspondence of The Associated Press)—The President of the French Republic regulated "The Devil of a Fellow"—one of the many newspapers published by the French soldiers in the trenches, addressed to him as:

Raymond Poincare,
Captain of Alpine Chasseurs.
This particular paper is the organ of the Alpine light infantry, known as the Alpine Chasseurs, whose blue uniforms and dare-devil courage have earned for them the nickname of "the blue devils."

The president has written the Alpine Chasseurs a letter to thank them, not alone for sending him their paper, but for the courtesy title they have given him.

"My dear comrades," he writes: "I thank you for sending me regularly 'Le Diable au Cor'. But I particularly thank you for sending it to me in an envelope upon which under my name, appears the title which is dear to me and which binds me to you: 'Captain of the Alpine Chasseurs'."

"Every time I open such an envelope, I feel a little thumping of my heart and experience a very real emotion in which joy and melancholy are mingled. I am very happy in thinking that you regard me as one of you, and only sorry not really to be one of you, at the head of one of your valiant companies, in these tragic hours."

"Were I not bound by other duties, how proudly would I don your uniform of 'blue devils'! Each time that I am with you I almost yield to the temptation not to leave you."

"Last Monday, when I paid a visit to the Vosges, to the third brigade of the Alpine Chasseurs, your welcome again waked to me that feeling. You received me with the accents of the St-di-Brahim; you sounded in my ears the refrain of my old battalion; you decorated the houses of the villages and even the trees along the road; you set up pretty triumphal arches, in which the moss of the forest was wedded to the engines of war; you designed charming decorations out of barbed wire which, tomorrow, will be stretched in front of your trenches—in a word, you were most ingenious in feeling me, the representative of the Republic of France. But you put into your demonstrations a sympathy, a warmth so cordial, so familiar—you put into them so much comradeship that you at once took from our meeting every vestige of ceremonial, of official constraint."

"And so it was given me to see you close at hand to mix with you, there in the mountains, better to appreciate your efforts, your bravery and your success. I admired your wonderful bearing and your sublime gaiety—nor did it surprise me. And when, on the suggestion of the commander in chief, I presented crosses and medals to some of you, I included in that homage all of your battalions."

"Honor and glory to the Alpine Chasseurs!"

"Raymond Poincare."

Men Pay Homage to Mother's Friend

"I am not surprised to observe the number of men who come into the store to purchase 'Mother's Friend,'" remarked a leading druggist.

The expectant mother if she has heard of this splendid embrocation is probably not reading the papers to much extent. And if she does it is a happy thought to send hubby to the drug store. "Mother's Friend" is applied externally over the abdominal muscles.

It is a gentle, soothing lubricant, penetrates to the fine network of nerves beneath the skin and has a marked tendency to relieve the muscular strain to which these broad, flat abdominal muscles are subjected. The cords, tendons and ligaments are thus permitted to stretch without the corresponding surface strain so often involved during the period of expectation. This in part accounts for the entire absence, in many cases reported, of nausea, morning sickness and other distresses. And particularly to young mothers is this remedial application of inestimable value since in this keeping the muscles firm but pliant it enables them to go through the ordeal without laceration of the epidermis so often the case when this gentle form of lubrication is neglected.

"Mother's Friend" is highly recommended by a host of women. Write Bradford Regulator Co., 508 Lamar Bldg., Atlanta, Ga., and we will send you a valuable little book to expectant mothers. The effect of this splendid external application is an expression of the thousands of women who have successfully used it and recommended it through two generations.

SINGLE G. WINS CHAMBER OF COMMERCE STAKE

TAKES FEATURE AT DETROIT IN STRAIGHT HEATS.

Russell Boy Delays Start of Race for Half an Hour by Continual Breaking—Rain Stops the Going and Leaves One Event on Card Unfinished.

Detroit, Mich., July 27.—The Chamber of Commerce stake for 2:07 class pacers with fourteen starters—the largest number in its history—was won by Single G., the sensational Indiana horse, this afternoon. Gosnell drove the son of Anderson Wilson three fast miles in straight heats and easily could have set a new record for the stake had it been necessary in order to capture the prize. In addition to the Chamber of Commerce, which was the feature of today's grand circuit program, two other races were finished and one was left uncompleted when rain put a stop to the going after one heat had been run off.

In the first heat of the big race, Hal Boy, Hal S., and Camelia were in front, in the order named until the last turn of the track when Gosnell, who had held Single G. in fourth place, came through with a rush and finished eased up.

Single G., too the lead, starting the second heat, yielded it for a time to Hal S., then again ahead when ready and was half a length in front of Judge Ormond at the wire, the latter coming out of the bunch under the whip to get second place by a neck from Rastus. In the third heat Single G., was always in front.

Russell Boy, by continual breaking delayed the start of this race for nearly half an hour. He acted so badly that the judges thought another driver might improve his chances and Geers was substituted for McDaniel after the second heat. He did no better for the veteran however.

The 2:08 pace went four rather slow heats before Lelia Patchen was returned winner.

Lou Jennings won her seventh race in six weeks when she captured the 2:13 trot in straight heats.

Jean and Hedgewood Patchen had a pretty race in the one heat of the 2:22 pace which preceded the rain, alternating in the lead until Murphy sent his mare ahead to win in the last hundred yards.

Fifty one horses were named to-night as sure starters in tomorrow's four events, the chief of which is the M. & M., \$10,000 stake for 2:08 trotters with thirteen to go.

Summaries:

2:05 pace, 5 in 5. Purse \$1,000. Lelia Patchen, (Snow) 1 5 1 1 Baron A., (Cor) 2 1 2 2 The Assessor, (McMahon) 3 3 3 3 Best time: 2:05.

ACCUSED OF TRESPASS.

James E. Pike on Tuesday got out papers against Albert B. Pike and wife charging trespass. It seems that Albert Pike and wife took their personal effects and went to the home of Pike's mother in Prentice and settled down to live. The mother is an aged woman and said that she was unable to stand the expense of having them in her home. The papers were gotten out by James E. Pike, another son who is constable in South Jacksonville. Constable Ferguson served the papers Tuesday afternoon.

COLLECTORS.

The world is full of men who collect things.

Some men collect postage stamps and pay as high as \$10,000 for a stamp which was worth 2 cents before it carried a grocery bill to a barber's shop in Mauritius. Others collect pipes, snuff boxes, engravings, birds' eggs, geodes, tulips, tobacco tags, dogs, cats, fleas, Oriental rugs or street car transfers.

When a man becomes a collector he fixes his affections upon whatever he collects and lives for his fad. Nothing can exceed the pride with which an otherwise sane member of society will display a slipper of rare design, the finest in his collection of 1,789 varieties, all different, costing \$100,000 and worth in the neighborhood of \$1.45.

Collecting rare books is a passionate joy to many men. Edgar Allen Poe who died of scanty nutrition would be pleased to see the deep joy with which men pay thousands of dollars today for his manuscripts which brought 10 cents a page when he needed the money.

Collecting paintings has raised the price of old masters \$7,000 above normal in the past thirty years. Rembrandts are so valuable, be-

A JACK FROST JULY DINNER.

It is quite possible to have a frosty dinner on the hottest day of the summer if you can secure a hundred pounds of ice, a freezer and a few molds.

First plan a menu. It need not be elaborate but it should contain enough substantial food to satisfy hunger, for though the appetite is fickle in July, the body needs are as important as in other seasons.

The following list of frozen and chilled dinner dishes may help you to plan a satisfactory cold dinner:

Chilled Clear Bouillon
Jellied Veal
With Tomato Potatoes
Chilled Asparagus in Vinaigrette Sauce

Cold Boiled Salmon on Lettuce with Mayonnaise
Chicken Sandwiches
Iced Watermelon Cubes
Iced Coffee White Frost Cake

For such a dinner as this, some of the dairy paper napery can be used to advantage. The paper tablecloths and napkins are to be found on sale in all ten cent stores, and some of the designs are pretty. Those with the clear white stamped figures are most suitable for the Jack Frost affair, as the patterns look somewhat like frost work. The crepe paper is much more decorative than plain smooth finished paper and sometimes the table cover and napkins match one another. The better sort of paper plates may also be bought for this special meal, but the paper cups are not very appealing and tip over so easily that it is better to buy a frosted glass or tall cool-looking tumblers.

The recipe for the iced coffee is: One quart of strong coffee, one pint of cream. Cool and serve with chilled or crushed ice in glasses.

Some of the fruit beverages may be preferred to coffee. Chingaling is becoming a well-known summer drink. Make it with the juice

of six oranges and sugar to sweeten. Set this on ice until needed, then apportion it among the glasses and fill up with iced ginger ale.

Pineapple grated and combined with raspberries makes a beautiful appearing beverage that is sometimes called Turkish delight. Grate one fully ripened pineapple into a bowl and cover with pulverized sugar, and let stand several hours on ice, then add crushed ice and red raspberries. Serve in sherbet glasses with a small spoon. Mint is famous for its cooling properties and its lovely color seems to give added beauty to any cold drink. Mintade is a Southern beverage made of ginger ale, a sprig of mint and a few candied cherries.

Questions and Answers.

The reply to this correspondent will doubtless interest a number of readers at this shortcake season.

"Dear Editor—My family have turned their affections from biscuit dough shortcake to a real sweet cake with berry filling. I have been buying a sunshine cake for them and added the berries to it, but would like a recipe for a simple sweet shortcake, Indiana."

Reply: The following recipe is one that the writer makes for her family and they pronounce it "first class": Separate and beat three eggs light. To the yolks, add one half cup of sugar blended with one tablespoon of butter, beat again and add one-half cup of milk, half a cup of flour, two and a half teaspoons of baking powder, one half a teaspoon of flavoring and the whites of the eggs. When this is mixed well, add one more cup of sifted flour and stir it smooth. Bake about twenty minutes in hot oven without jarring. This will rise to a light fluffy cake and makes two good sized layers. As it is so delicate, it should be cooled in the pans so it will not fall after baking. Eat while warm with plenty of berries and cream.

JOHN WOLKE RETURNS FROM AUTOMOBILE TRIP

Made Fine Progress Along Muddy Roads With Lewis Six Car.

John Wolke recently returned from an automobile trip which made him think more than ever of his Lewis 6 car. With several members of the family he took a journey through northern Illinois and Wisconsin which covered a distance of over 1,000 miles. On the return trip he found some very heavy roads in the vicinity of Neoga and between Shelbyville and Pana. There the roads are hilly and the soil is red clay. The frequent rains made the highways very muddy and slippery, but at no time were the conditions too much for Mr. Wolke's car. He saw only a few auto drivers during several days' journey because of bad weather conditions and encountered a number who had given up intended travel and were either leaving their cars and returning home by train or having the cars sent by freight. Mr. Wolke in buying a car chose the Lewis 6 after examining a great many other makes and he now feels certain that his choice was well made.

WHITE HALL MAKES READY TO PUSH BIG FOUR TRAIL

Northwestern Division Organized With C. A. Ruckel as President—Highway Will Run From Terre Haute to Kansas City.

White Hall, Ill., July 27.

The northwestern division of the Big Four Trail was organized at White Hall Monday at a spirited meeting held in Vitagraph theatre, C. A. Ruckel was elected president and R. B. Pease secretary, both of White Hall.

The division over which they will preside extends from Litchfield west to the Mississippi. Although the route had not been located farther west than Pittsfield, Louisiana and Hannibal presented claims for the route, and this matter will be determined at another meeting to be held in Pittsfield on August 16.

White Hall showed great hospitality to the visiting delegates today. The White Hall band gave a concert in the park from 12:30 to 2 o'clock. There were about fifty visiting automobiles.

The Big Four Trail starts at Terre Haute, Ind. and will be extended to Kansas City. Dr. I. A. Slupkin is the general president and E. B. Tucker, the general secretary, both of Mattoon. It is thoroughly marked as far as Greenfield from which point the marking to Pittsfield will now proceed.

At Monday's meeting towns from Mattoon to Louisiana and Hannibal were represented, and they were a very representative bunch of men.

CONCORD.
Messdames Martha Smith, Louis Rexroat, Alice Hamm and brother Louis Smith were entertained Wednesday at the hospitable home of Mr. and Mrs. William Willard in the Chapin neighborhood. Mrs. Smith, who celebrated her 90th birthday July 10, being the guest of honor. She is also a relative of Mr. Willard.
Thomas Titus and family spent Saturday in Jacksonville, making the trip in their car, as did also George Dietrich and family and Wm. Zahn and family.
The C. E. society of M. P. church had a very pleasant social at the home of Mr. and Mrs. Austin Smith Wednesday evening, there being over 40 present to participate in the amusements furnished by the social committee and also to test the culinary skill of the members who furnished the delicious cakes and lemonade.
Miss Mary Higgins of Winchester visited her friend, Miss Anna Roach, and attended the services of the laying of the corner stone of the M. E. church Sunday at 3 p. m.
Miss Belle Edmundson of Rushville visited her aunt, Miss Jane Ater, Sunday, making the trip in an automobile in good time.
Otis Vallery, son of Arthur Vallery, who was operated on by Dr. Day Saturday a week ago at his hospital, came home last Saturday quite relieved of his lameness caused from an abscess which Dr. Day opened and scraped the bone. All wish for him a complete recovery.
Miss Ruth McCarty of Jacksonville spent last week at the home of Roy Crouse and wife.
Earl Johnson, son of Dr. A. M. Johnson, who was at Passavant hospital five weeks from a very badly fractured limb, came home Saturday evening and is recovering nicely from the same.
Sheriff Grant Graff, deputy and chauffeur, were Concord business visitors Monday evening.
Rain Sunday and threatening precipitation undoubtedly kept many from attending the corner stone laying, yet there was quite a goodly number of attentive, interested observers and the services were certainly quite impressive and fitting, one that will remain with those present while life lasts.
Miss Carrie Dietrich attended the services and visited the Caldwell family afterwards.
We are sorry to hear of the serious illness of Mrs. Emily Henderson. Miss Flora Fison was the guest of the Misses Hester and Sara Dietrich Sunday.
Mrs. V. I. Ball and daughter Lucille went to Peoria Sunday night.
Mr. Yelter of Centralia was in Concord with his friend Alex Frazer Monday.
Vernon Rexroat of Arenzville was in Concord Monday afternoon.
Mr. and Mrs. Edgar Cooper of Springfield visited home folks over the week end and attended the corner stone laying.
Mr. and Mrs. Walter Wright and daughter of Jacksonville visited Mr. and Mrs. Ernest Sanders and witnessed the laying of the corner stone.
Mr. and Mrs. Aaron Petefish, Jr., of Litchberry were guests at her home Sunday and also were among those at the services Sunday afternoon.

RE-COMMITTED TO STATE HOSPITAL.
Sheriff Graff and Deputy Norris went to the vicinity of Arenzville Monday evening and brought back Earl Jockish and he is re-committed to the Jacksonville State Hospital. Jockish has been a patient at the hospital before and it was thought best to again place him in confinement.

FUNERAL NOTICE.
The funeral of Miss Hazel Harrison will be held from Betzel A. M. E. church this afternoon at 2:30 o'clock. The services will be conducted by the Rev. Mr. Mackey in the absence of the pastor, the Rev. G. T. Shaw.

WORLD'S MARKET NEWS

BLACKRUST GIVES ADDITIONAL IMPETUS TO UPTURN IN WHEAT
Unwelcome Rains Throughout the West Start Rise—Corn and Oats Finish With Gains.
Chicago, July 27.—Blackrust becoming more serious in Minnesota and North Dakota gave additional impetus today to an upturn the wheat market received owing to unwelcome rains throughout the west. Prices closed strong, 3/4c above last night. Corn finished 1/4c up and oats with a gain of 1/2c to 1 3/4c. The outcome in provisions varied from 10c decline to 15c advance. Although at first the conditions for a greater spread of black rust infection appeared to be lacking, the outlook was reversed later. Warmer temperatures which were reported as prevailing in the spring wheat states seemed to cause a quick increase of complaints of a widening of the plague area. At the same time the injury inflicted was in some cases said to be graver in character than had heretofore been noticed this season. For example, stems at Okato, Minn., were described as perforated clear up to the head. In view of such advices none of the bearish reactions in the market proved to be of a lasting sort, values finishing at almost the top point reached, especially for September and December. Crop damage by wet weather in Kansas, Nebraska and Missouri wheat fields had a bullish effect second only to that due to blackrust. Some wheat in Missouri was reported to have been abandoned and it was said much remained uncut in Nebraska, with rain still threatening the winter crop harvest, notably in Illinois. Export demand improved both here and at the seaboard.
Corn sympathized with the wheat strength. Besides, country offerings were small and the eastern inquiry fairly active. Oats hardened in price on account of the firmness of other cereals and because of harvest delays. Shorts experienced considerable difficulty trying to even up on the July delivery.

DEMAND FOR STOCKS BROADENS: RAILROAD SHARES SCORE GAINS
Market Gives Best Exhibition of Sustained Strength Which Has Been Witnessed for Some Time.
New York, July 27.—The demand for stocks broadened today and the market gave the best exhibition of sustained strength which has been witnessed in some time. Of particular significance was the reawakening of activity in the railroad shares. A wave of optimistic feeling pervaded all quarters of the market. The rise began with a further marking up of the war stocks several of which again made high records. The buying movement spread to other specialties, with speculation restricted largely to the industrials during the morning.
St. Paul was lifted 5/8, Canadian Pacific 5 and a large number of others from 1 to 4 points.
Among the industrials Bethlehem Steel rose 2 1/2 points to 250, the preferred 3 points to 142; Crucible Steel 5 points to 51 1/2, Baldwin Locomotive 2 1/2 to 85; Can 1 1/2 to 6 1/2 and Allis Chalmers preferred 2 points to 6 3/4, all new high records.
The rise was assisted by a considerable increase in commission house buying. Added impetus to the movement was given by the inferences drawn from the conduct of the market yesterday.
There was heavy buying of steel in anticipation of a favorable quarterly statement. This expectation was realized fully when the statement appeared after the close. Total earnings, as had been predicted, were more than twice those of the preceding quarter, amounting to \$27,950,055, as compared with \$12,457,809 three months ago.
After deducting the dividend of 1 1/2 per cent on the preferred stock there was a surplus of \$3,967,645, as against a deficit of \$5,389,861 for the first quarter of the year.

WOMEN IN THE NEWS.

London—The romance of pretty Miss Violet Asquith, daughter of the British prime minister, and Mr. Bonham Carter, the private secretary of her father, will culminate in a pretty wedding tomorrow, the first marriage in the official family for many a day. Many of the cabinet members will take a breathing spell and attend the wedding, for Miss Violet has been socially prominent here during the past seven years, since her father took up the reins of government. The young groom, who has shown exceptional ability as an aide of Mr. Asquith, comes of a prominent family.

St. Louis, Mo.—Whether Mrs. Walter E. Keown of this city, will receive her legacy of \$150,000 depends on the decision of her husband, now in hiding, as to whether he will face the government charge of misuse of mails and come into the open to prove his signature to the will which gives her a fortune. His presence is required to obtain the money for his wife, and the friends of the couple are guessing as to whether he will ever return. If he should return, he will be obliged to stand trial for misuse of the mails in a lumber transaction. He jumped his bail three years ago in Kansas City, and is said to have fled to France. Mrs. Keown has been making every effort to locate him, for she believes he will face out the trouble for her sake.

New York—Ten American girls, homeward bound from long service nursing typhus patients in Serbia, heard the call of suffering humanity at the island of Malta, and gave up their comfortable cruise in Sir Thomas Lipton's yacht Erin to answer in the emergency. Among them are Misses Fry and Tetrault of Kansas City, Miss Watson of Chicago and Miss Gardner, also from the West. They forfeited their hard earned vacations to nurse the wounded soldiers of the Dardanelles armies. When the Erin touched at Malta and the need of nurses was told, the girls offered to go ashore at once, to serve as long as they were needed. Sir Thomas Lipton deeply touched by the magnanimous offer of the American girls, thanked them as they left his yacht and bestowed high praise upon them.

Cincinnati—Through the magnanimous gifts, mostly from women, that have come to the Medical college here, the foundation for a million dollar college has been assured. Mrs. Mary Emery gave a quarter of a million to the new college. Mrs. Charles Fleischman, Mr. and Mrs. Charles P. Taft, Miss Alice Levy Kuhn, Miss Anna Louise Taft and Mrs. Christian R. Holmes were among the other contributors of large sums.

Berlin—One of the most serious-minded women at the German capital is Crown Princess Cecilie. Up to the time the war began she was gay, fond of a good time and of pretty clothes. Today, with her four little boys that provide a succession to the throne, and one little girl to appeal to the hearts of the people, she is the most popular member of the imperial family. It was she who sent throughout Germany what has been called her slogan "Mobilize the Kitchen". She personally directed the formation of the system now in force whereby housewives are taught the relative value of foods, the methods of utilizing everything at hand, and were taught the principles of nursing wounded and broken-down soldiers. She banded the leading women of the city into sewing circles, where knitting and sewing are done for hours each day, in a large hall at the Reichstag. She superintends the packing of gifts for the soldiers at the front.

New York—Miss Grace C. Strachan of New York is a candidate for the presidency of the National Education Association which will hold its annual meeting at Oakland, Cal. next month. Miss Strachan was one of the leaders in the movement to place a woman at the head of the big association and campaigned successfully for Mrs. Ella Flagg Young of Chicago, when she won the office.

Chicago—All is in readiness for the marriage of Miss Catherine Baker, reputed to be the richest girl of her age in the world, to Howard H. Spaulding, a young Chicago business man. The wedding will take place on Saturday at Harbor Point, Mich. Miss Barker, who is reputed to be worth \$30,000,000 turned down titled foreigners, deciding that her husband must be a typical American.

Paul and Ralph Burrow were Sunday guests with Dean and Earl Hembrough.

ALBERTA VOTES TODAY ON PROHIBITION

First Canadian Province to Test Sentiment.

Calgary, Alta., July 27.—Alberia, the first province to take a vote on total prohibition of liquor, is today casting its vote on the liquor question. Edmonton, Calgary and Medicine Hat are expected to come out strong against the measure, but the Mormon districts in the south will probably vote solid for it.

VETERANS OF CIVIL WAR

SPECULATIVE ACTIVITY LIFTS PRICES RAPIDLY IN STOCK MARKET

Public Buying of Stocks Increases—Speculators Find Market Responds Readily to Efforts to Bring About a Rise.

New York, July 27.—An outburst of speculative activity lifted prices rapidly today in the stock market. Public buying of stocks increased and the professional traders found that the market responded readily to efforts to bring about a rise. Not for weeks had there been such a broad and sustained advance.

Buying of steel stocks was in anticipation of a good showing in the United States steel corporation quarterly report, an expectation which was realized when the statement was given out after the close. War stocks continued their spectacular advance.

Bethlehem steel jumped 29 points to 250, a new high record. Crucible steel, Baldwin Locomotive, American Can and Allis-Chalmers preferred all reached new high figures.

An active demand for railroad stocks perhaps was the most significant feature of the trading. Those issues of late have been dull and heavy. Canadian Pacific rose 5 points, St. Paul 5 1/2 and a large number of others 1 to 4 points.

FUNERALS

Dickens.

The funeral of John Dickens was conducted Tuesday afternoon, at 2 o'clock from the Christian church in Chapin, in charge of the pastor, Rev. D. Hadaway. There was a large number present to pay a last tribute of respect to the dead.

Music was furnished by a sextet composed of Mrs. A. B. McKinney, Mrs. Hattie Bobbitt, Mrs. F. G. Eller, Mrs. Benjamin Taylor, Henry Perbix and William McAdams. Miss Bertha Williams acted as pianist. The flowers were cared for by friends.

Burial was made in Jordan cemetery, east of Chapin, and the bearers were Messrs. Henry and Winfield Brownlow, Edward Antropous, Charles Taylor, Peter Burrus and Henry Collier.

Fletcher.

Funeral services were held Monday afternoon at 2:30 in Waverly for W. F. Fletcher, in charge of Rev. J. S. Smith. Interment was made in East cemetery.

Mr. Fletcher was 77 years of age and had been ill for some time. He leaves his widow and two sons, Charles of Waverly and John of Wisconsin.

ARGUMENTS TODAY IN TITANIC LIABILITY CASE.

New York, July 27.—The summing up in the liability case brought by the Oceanic Steam Navigation Co. (White Star Line) seeking to limit the company's liability for damages because of the Titanic disaster will be heard today by Federal Judge Mayer. The claims against the line growing out of the disaster amount to nearly \$18,000,000, and the company seeks to limit the liability to the value of the wreckage.

It was brought out by the claimants against the line that their main contention in opposing the action lies in the conduct of J. Bruce Ismay, Chief Director and General Manager of the line. The parties who claim damages from the line maintain that Ismay was warned of an obstruction ahead; that he carried in his pocket a message warning the Titanic of ice; that Ismay, and not the captain was supreme aboard the ill-fated ship.

Charles Otis Barnes of Pennsylvania who has made a long study of country life, will give four lectures. The conference will be in session until Friday.

STRIKE OF STANDARD OIL EMPLOYEES AT BAYONNE ENDS

Plant Superintendent Promised to Recommend an Increase in Wages and to Right and Wrong the Fines to Exist in Shop.

New York, July 27.—The strike of employees of the Standard Oil company at its Bayonne, N. J., plant, which has lasted ten days and resulted in serious rioting during which three men were killed and scores injured is at an end.

The men voted to return on the promise of G. B. Hennessey, plant superintendent, that he would recommend an increase in wages and would right any wrongs found to exist in the shop if the men return to work forthwith.

The tie-up of the Eagle Oil company's plant at Caven Point, Jersey City, was made complete today when nearly all of the other employees remained away from the works. There was some disorder in the early hours but it was soon checked.

It is thought the action of the Bayonne strikers will influence a speedy settlement of the strike in Jersey City.

MORTUARY

Campbell.

Robert Campbell, a man widely known in Scott and Pike counties, died Saturday and was laid to rest Monday afternoon at Hull, Ill. Mr. Campbell lived most of his 75 years in the two counties. He married Miss Elizabeth Price in 1866 and is survived by his widow, and two sons Rollo U. Campbell of Hull and Benjamin F. of Quincy. There are also three brothers and a sister surviving. Mid and Jasper Campbell of Winchester and Mrs. Mary Witts of Burton.

The deceased had a most honorable military record, having served his country well in the armies of the Union, during the civil war. He was for many years a consistent member of the Baptist church.

SPECIAL NOTICE.

There will be no home grown peaches this year for canning. Therefore it will be necessary for us to secure our supplies from the south. We have today 400 BUSHELS OF FANCY ALBERTA FREE STONE PEACHES which will be on sale at all the grocers at reasonable prices. Every family in the city should take advantage of this opportunity to secure at least one bushel of these fine peaches. Don't put it off waiting for lower prices as perhaps they are cheaper today than they will be again this season.

BURTON OPENS CAMPAIGN FOR G. O. P. NOMINATION

Cleveland, O., July 27.—Former U. S. Senator Theodore E. Burton is off today for a tour of the West. His Presidential boom, which has been growing in his native state, will be spread by the effect of his oratory. He will talk in many of the leading chambers of commerce and trade bodies will hear him. He is accompanied on his campaign tour by Granville W. Mooney, former speaker of the Ohio legislature.

Senator Burton has made several speeches in Pennsylvania and Ohio previous to his long trip westward. The success greeted these early efforts indicate that he will be given a hearing by the trade bodies who are anxious to size up the G. O. P. presidential timber. His tour will take him into all the leading cities of the far west.

NEW INSTRUMENT SIMPLIFIES WATER SUPPLY MEASUREMENT

With Pitometer Rate of Flow in Pipes can be Determined at Any Point in System.

The Caldwell Engineering Co. has just received from New York a "pitometer," or water measuring device which of recent months has been coming into use among water companies, municipal authorities and others with business in any way concerned with water supply. The pitometer may be taken from place to place and by boring a pipe at any point and by means of an ordinary corporation cock, putting in two tubes pointed in opposite directions which make possible the gauging of flow and pressure by the comparative height of mercury in two finely adjusted glass tubes. A camera attachment makes the pitometer self-registering so that the test may be made to last through any given time. Pitometers until recently have been rented by the manufacturing company and never sold. The one here will be the first to be owned in this section of Illinois.

The true capacity of a water system is subject to constant variation and the pitometer is invaluable for locating leaks, doing away as it does with the use of expensive meters, which can be employed only at the point of construction. Closed valves will often disarrange an entire system and in case of fire, an expected supply of water fails to materialize. The engineering company proposes to use the pitometer for testing the capacity of large drainage district pumps.

The testing of pumps is another use to which the pitometer is sometimes put. Failure to deliver the required volume of water plunger displacement calls for as shown by the revolution counter on a pumping engine is a common defect and a prolific source of fuel waste. A "slip" of four or five per cent is often regarded as normal but tests show that many engines which do heavy work are running on a continuous "slip" of fifteen, twenty and even sixty per cent. It is often possible for a pumping engine to "go through the motions" without delivering nearly all of its advertised volume of water.

Our sale is on and we ask our friends and customers to call and supply your wants at from 20 per cent to 50 per cent reduction at TOMLINSON'S.

TESTIMONY TAKEN IN PARTITION SUIT.

Mrs. Orear Seeks to Show Ownership in Certain Property to Which Her Brother Had Title.

Master in Chancery John F. Clark began the taking of testimony Tuesday in the partition suit filed by Mrs. Sallie B. Orear against Mrs. D. R. Browning and the Farmers State Bank & Trust Co. The case was referred to the master by Judge Burton.

Two witnesses were examined for the complainant, John and William Rees of Winchester, Kentucky. Mrs. Orear's claim is that she was a partner with her brother, the late D. R. Browning, in the ownership of valuable farm lands although the title to the lands was vested in him. The witnesses yesterday were asked to testify to certain conversations with Mr. Browning in which it was alleged that he had told of the joint ownership of property by his sister and himself.

The date for the further taking of testimony has not been fixed. Mrs. Orear is represented by Bellatti, Bellatti and Moriarty, and the defendants are represented by Kirby, Wilson & Brockhouse.

Yes, TOMLINSON has started his July sale and you can buy summer goods at 20 to 50 per cent reduction.

MRS. RYAN'S STORY OF FRANKLIN CUTTING AFFRAY.

Does Not Consider Her Husband at all to Blame for the Trouble.

Mrs. Zora Ryan of Franklin, wife of John Ryan who was seriously cut by Reuben Jones at Franklin Saturday night, is in the city at the bedside of her husband who is a patient at Our Savior's hospital.

Mrs. Ryan called at the Journal office Tuesday and asked that the Journal state that her husband did not go to the Richardson place of his own volition. Mrs. Ryan accuses Iven Woods, manager of a moving picture show in Franklin and who until Monday, was the village policeman of being the cause of Ryan being at the Richardson place.

Mrs. Ryan says that her husband returned home Saturday evening from the country where he had been working on a farm. He dressed and started down town and as he passed Woods' picture show Woods invited him in to see what a large crowd was present.

Later she says that on the invitation of Woods that Ryan went with him to the Richardson place and that there an unprovoked attack was made on him by Jones. Afterward it became necessary for Woods to arrest Jones.

A special meeting of the village board of Franklin was held Monday night, when the case of Iven Woods, policeman, was considered, and the part he took in the trouble between John Ryan and Reuben Jones last Saturday night was reviewed. Woods was relieved of his star and James Tribble was appointed temporarily to take his place. Iven Woods is a son of Mayor W. J. Woods.

REV. JOHN W. MILLER MAY HEAD COLLEGE

MAY SUCCEED DR. HARMON AS PRESIDENT OF MCKENDREE.

Local Pastor Named Among Successors for Important Place—Bishop McDowell May Retire—Illinois Conference in September One of Interest.

Several matters of importance are to come before the Illinois conference at its annual meeting September 8 to 13, in Springfield. It is said that the presidency of McKendree college of Lebanon will be an important proposition to be passed upon. It is stated that President Harmon, the present head, will probably retire. Dr. J. W. Miller, pastor of Grace M. E. Church of this city; Rev. J. W. Van Cleave of Decatur, Rev. A. C. Piersel of Urbana and Rev. Joseph C. Nate of Leroy are mentioned as possible successors to Dr. Harmon.

Preparing for Visitors.

Springfield ministers and laymen are preparing to entertain the 400 ministers and 300 laymen from over the state who will attend. One of the plans now in process of working out is that which, on conference Sunday, September 12, will witness the filing of every Protestant pulpit of the city by a visiting Methodist minister, not only at morning but at evening service as well. There will be forty pulpits to fill.

Details of the conference program have not been completed, but it is apparent from advance information that the questions which will be discussed and the addresses which will be heard will give the meeting an unusually interesting and important aspect.

Bishop McDowell to Retire.

In the election of high church officers, there promises a lively contest for the bishopric. That Bishop McDowell will retire from the presidency is regarded as probable, from fact that Washington, D. C., may want the Illinois church head. Zion's Herald at Boston is authority for the statement that the national capital will ask for Bishop McDowell. This episcopal area, it is conceded, would like to retain the bishop in the central west, but in view of the church's policy to keep a strong man in Washington, there is reason to believe that Illinois Methodism would acquiesce in the plan should the general conference next May ask for McDowell.

The eight districts comprising the conference are Springfield, Jacksonville, Decatur, Bloomington, Champaign, Mattoon and Danville. The proposition of redivision contemplates six districts instead of eight. Several plans have been advanced for an equitable dissolution of the two districts, and these will be taken up in detail at the coming conference.

Local Men Are Candidates.

These promises friendly rivalry when the question comes up of selecting Illinois delegates to the general conference. Preston Wood and Rev. T. N. Ewing of Springfield, F. A. McCarty of Jacksonville, W. J. Davidson of Evanston, President Kemp of Illinois Wesleyan university, J. C. Baker of Urbana and J. W. Van Cleave of Decatur are among the ministers named as likely candidates for the delegateships. State Superintendent F. G. Blair of this city and President Joseph Harker are prominently mentioned from among the lay delegates.

The Clinton and Hoopeson churches at the coming conference will have to be assigned pastors. It is said, Rev. E. K. Towle of Clinton has chosen evangelistic work for the future, and Rev. Walter Ewing will go to Centenary church in Terre Haute, Ind. Rumors are current also that Rev. L. G. Adams of Sidell will retire this year because of ill health.

HAD GOOD CROP.

B. S. Johnson who lives in the neighborhood of Sinclair has recently finished threshing on his farm. He had a field of forty seven acres which averaged 25 bushels to the acre. He has it sold at \$1 but like other growers is not certain it will grade number two. The farmers whose wheat has not been up to the standard grade have had this consolation this year that the grain has weighed out better than machine measure.

PROBABLY FIRST CASE UNDER NEW LAW.

Probably the first case under the recent law passed by the legislature to provide better care and detention of feeble minded was tried in Morgan county Tuesday. At the last session of the legislature that body passed a law entitled "An act to better provide for the care and detention of the feeble minded."

This act provides for a commission and Tuesday Ivy M. McDonald of Chapin was brought here for hearing. The case was before Judge William E. Thompson and the commission was composed of Dr. G. R. Bradley of Jacksonville and Dr. Mcintosh of Meredosia. State Attorney Robert Tilton also appeared in the case. After hearing the evidence the McDonald girl was committed to the Lincoln State School and Colony at Lincoln. This institution is especially for the care of the feeble minded of the state.

HOUSE-WORK MADE EASY

SELLERS KITCHENEEDS
FITTED WITH SELLERS NEW PORCELAIN TABLE TOP

Can now be bought at this store for the first time in this city.

This New Table Top

is the greatest improvement that has been made on kitchen cabinets in years and is the only absolutely perfect work table on the market. It is as white as snow and as easily cleaned as a china plate. Heat or cold can not affect it. Its glossy surface, as smooth as plate glass and as hard as flint, remains the same after years of use and with ordinary care will last a lifetime.

Just Think This Over.

When you buy your kitchen cabinet, you will want and have a right to expect one that will give you years of service. The work table should be made of material that will last as long as the cabinet, can be easily cleaned and kept clean.

For years, all cabinet manufacturers have covered their work tables with nickeloid, nickeline or aluminum. All of these materials have been found wanting in some respect and begin to show signs of wear from the first day they are used. Then, too, these tables were placed alike on all grades of cabinets and you were offered no better work table with the high grade cabinet than you were with the moderate and low priced ones.

There has been a growing demand for a table top that would "Stand the test of time". That demand can now be satisfied with this new "Porcelain" work table on any Sellers Kitcheneeds.

You are cordially invited to call and inspect our new line of Kitcheneeds fitted with these new work tables. We agree to prove to you by actual test at our store the superiority of this Table Top over others and to make good all our claims for it.
